

Performance
Made Compact

The next generation of Dynamic Support Technology™

The F&P Evora™ Full mask is uniquely designed to optimise performance throughout the night.

Dynamic Support Technology combines Stability Wings with the Floating Seal to allow for freedom of movement while keeping the mask in place.

Stability

rated the Evora Full mask as stable or very stable¹

Performance

rated the Evora Full seal performance as very good or good²

Secure Comfort.

The decoupled seal accommodates for movement while the soft silicone gently wraps under the nose for a comfortable night's sleep.

Comfortable

rated the Evora Full mask as comfortable or very comfortable³

Considering patient preference

Up to 60% of PAP therapy users report issues such as poor mask fit, air leak, redness or skin irritation, and claustrophobia.⁴⁻¹⁰

When choosing a new mask, consider patient preference.

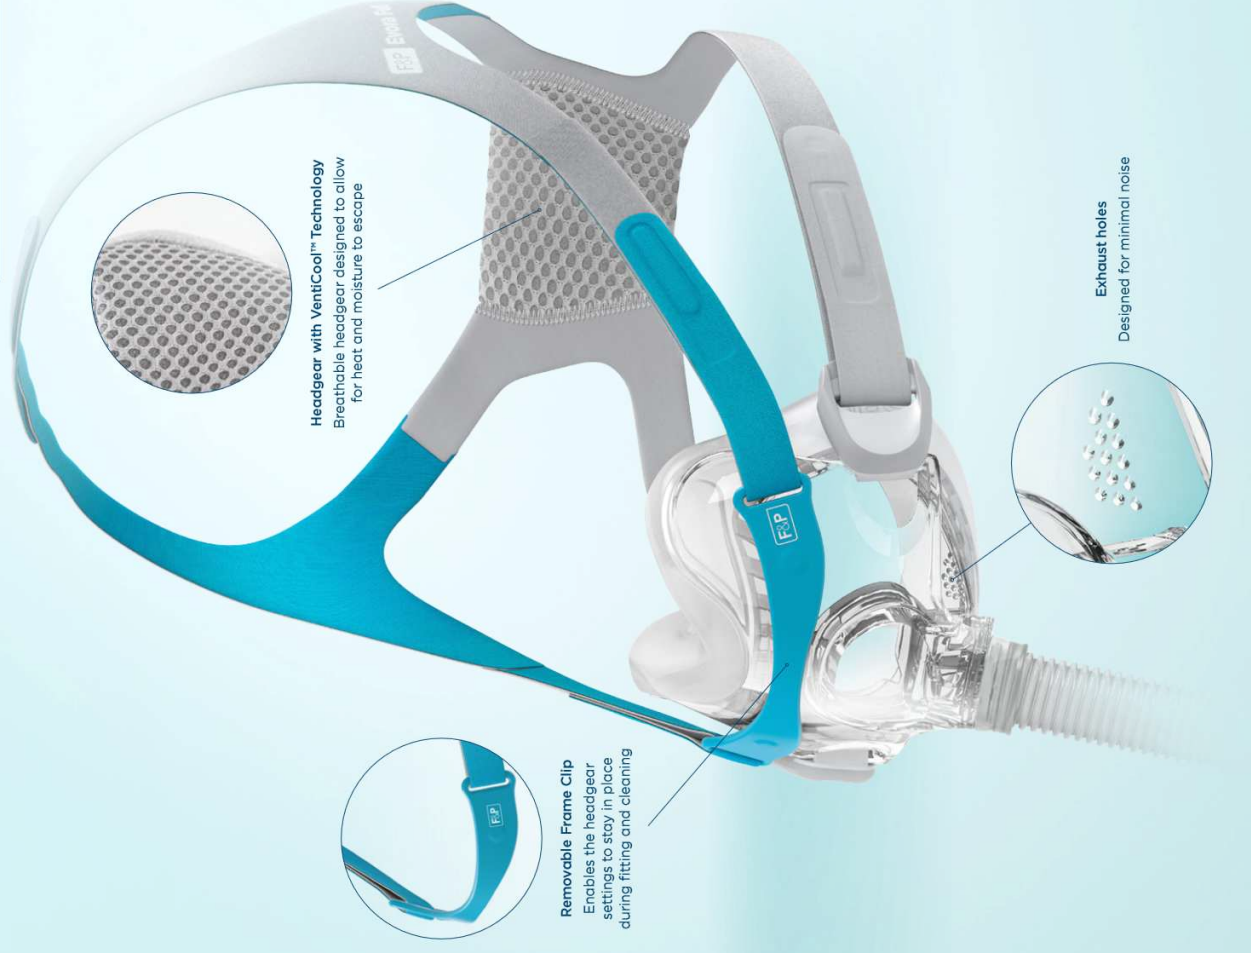

never or rarely experienced unintentional air leak into their eyes while using the Evora Full mask¹¹

were able to sleep in their preferred sleeping position while using the Evora Full mask²

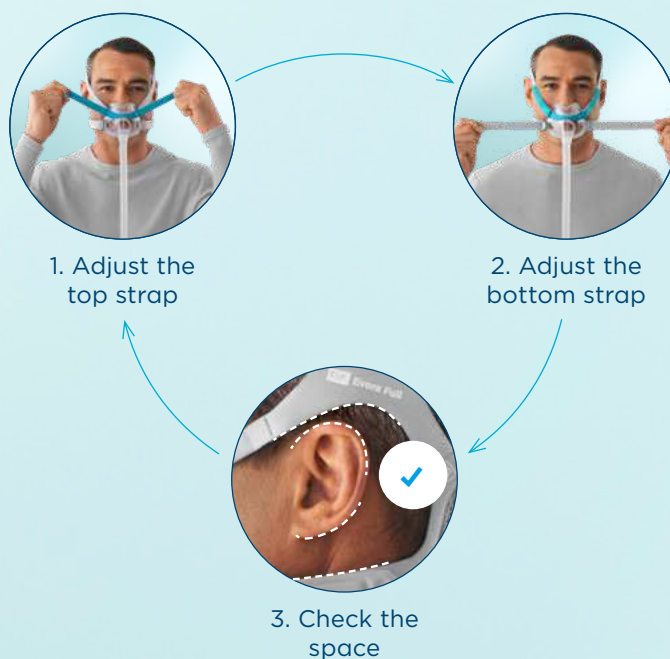

never or rarely felt claustrophobic while using the Evora Full mask¹³
